

Instructions

In this study, you **will** be asked to complete various questionnaires. Please read each question carefully, and don't hesitate to take breaks in-between them.

Please note that **various checks will be performed to ensure the validity of the data**. We reserve the right to withhold credit awards or reimbursement should we detect non-valid responses (e.g., random patterns of answers, instructions not read, failed attention checks...).

We are aware that answering these questionnaires **might feel long and repetitive**, but having similar questions is necessary to ensure the validity of the results (we expect similar questions to be related, and opposite questions to be inversely related).

At the end, you **will** be shown a **graph** summarizing your answers, and provided with an explanation about why we are asking all of this.

Example of result graph obtained at the end
